PROFESSIONAL SUMMARY

With a foundation in marketing and finance, I bring over 6 years of professional leadership and collaborative experience to the role of a Full Stack Web Developer. Currently pursuing certification through Vanderbilt University's Full Stack Web Development Boot Camp, I am an intuitive problem-solver with a passion for creating apps that prioritize mobile-first design and development. My strengths lie in creativity, effective team collaboration, and successful project execution.

EDUCATION

Certificate, Full Stack Web Development - Vanderbilt University | Nashville, TN |

Bachelor of Science, Marketing - Montana State University | Bozeman, MT |

Bachelor of Science, Marketing - University of Exeter | Exeter, UK |

PROJECTS

PawFit | [GitHub Repository](#) | [Deployment Link](#)

- **Summary:** I am proficient in developing a full-stack application tailored for comprehensive pet health and data record management. The application allows users to effortlessly add pets, input relevant data, and securely store the information for future reference.
- **Role:** My responsibilities include creating and designing the database, implementing handlebars functionality, and ensuring a seamless user experience.
- **Technology:** JavaScript, Node.js, Express.js, Handlebars, and Sequelize to build a robust and user-friendly platform for managing pet health records.

The Local List | [GitHub Repository](#) | [Deployment Link](#)

- Summary: Proficient in crafting a dynamic dashboard that showcases a 5-day weather forecast and real-time events for a user-specified city. I specialize in designing intuitive interfaces, implementing API functionality, and applying JavaScript logic for seamless user interactions.
- Role: I take charge of the design aspects, develop API functionality to fetch weather and event data, and implement robust JavaScript logic to ensure the dashboard's responsiveness and functionality.
- Technology: utilizing API integration, CSS for styling, and leveraging JavaScript and HTML to create an engaging and informative dashboard for users.

EXPERIENCE

BUSINESS FINANCE MANAGER
