PROJECTS

PAWFIT | [GitHub Repository](#) | [Deployment Link](#)

- **Summary:** full-stack application for comprehensive pet health and data record management, enabling users to add pets, input relevant data, and securely store information for future reference.
- **Role:** designing and creating the database, implementing Handlebars functionality, and ensuring a seamless user experience.
- **Technologies:** (JavaScript, Node.js, Express.js, Handlebars, and Sequelize)

LOCAL LIST | [GitHub Repository](#) | [Deployment Link](#)

- **Summary:** dynamic dashboard that showcases a 5-day weather forecast and real-time events for a user-specified city.
- **Role:** develop API functionality to fetch weather and event data, and implement robust JavaScript logic to ensure the dashboard's responsiveness and functionality.
- **Technology:** (JavaScript, RESTFUL API, Tailwind CSS)

EXPERIENCE

BUSINESS FINANCE MANAGER

- JESCO MARINE & POWER SPORTS | KALISPELL, MT | 2022 - 2023
- Managed \$10M inventory, orchestrated over \$1M in monthly sales, secured funding for 30% of transactions, increased revenue by 5-8% through strategic promotions and partnerships, with an additional 3-5% revenue boost from business agreements.

RELATIONSHIP DEVELOPMENT & SUPPORT

- BMO HARRIS BANK | MILWAUKEE, WI | 2019 - 2022
- Managed 200+ customer accounts, created a new workflow strategy to reduce cost by 8%, and consistently achieved 95% efficiency, 100% work quality, and high customer satisfaction.
